ABOUT ME

Driven Python and Data Science Developer with hands-on experience in developing machine learning models, creating robust web applications using Flask and Django, and designing engaging front-end interfaces. Adept at collaborating with cross-functional teams and utilizing data-driven solutions to meet business objectives. Seeking opportunities to contribute my expertise in a challenging, growth-oriented environment.

EXPERIENCE

Senior Python & Data Science Developer

Sai Info Solution, Nashik (August 2023 – Dec 2024)

- Developed and deployed machine learning models for predictive analytics, improving business decision-making.
- Designed and implemented data visualization and management solutions using Django and Flask frameworks.
- Built responsive and user-friendly websites using HTML, CSS, JavaScript, and Bootstrap.
- Collaborated with data science and engineering teams to streamline data workflows and ensure optimal performance.

Django Developer Intern

Cravita Technologies India Pvt. Ltd. (Project: Real Swadeshi Mart)

- Built an e-commerce platform supporting Indian local markets, leveraging Python, Django, and MySQLite.
- Designed front-end features using HTML, CSS, and Bootstrap for responsive and accessible interfaces.
- Managed admin/seller functionality, user registration, inventory, customer orders, and reviews.
- Contributed to the project's success by ensuring seamless integration of back-end and front-end components

EDUCATION

Master of Science in Computer Science (June 2022)

Bachelor of Science in Computer Science (December 2019)

HSC (12th), Maharashtra Board (June 2016)

SSC (10th), Maharashtra Board (June 2014)

SKILLS

Programming Languages & Frameworks

- Python: Proficient in building applications, data processing, and automation.
- Django & Flask: Experienced in creating web applications and RESTful APIs.
- HTML, CSS, JavaScript: Skilled in front-end development and responsive design.

Data Science & Machine Learning

- Hands-on experience with building ML models, data preprocessing, and analytics.
- Proficient in tools like NumPy, Pandas, and Scikit-learn.

Databases

- MySQL, SQLite: Experienced in designing and managing relational databases.

PROJECTS

E-commerce Platform: Real Swadeshi Mart

- Developed an end-to-end e-commerce solution to promote local businesses.
- Implemented inventory management and customer order systems.

Predictive Analytics Models

- Built ML models to forecast trends and provide actionable insights for business growth.
- Delivered data-driven dashboards using Django for real-time reporting.

CERTIFICATIONS

- AI and Machine Learning (Udemy)
- Django Full Stack Developer (Fortune Cloud Technologies)

ACHIEVEMENTS

- Secured first rank in college chess competition.
- Actively participated in college talent and tech competitions.

PERSONAL INFORMATION

- Date of Birth: 30th July 1998
- Languages: Marathi, Hindi, English
